

Water Access, Sanitation, and Hygiene (WASH)

“Together with you for a clean and healthy tomorrow”

Water access, sanitation, and hygiene have been a prevailing problem in the communities. Hence, our efforts to help our clients in creating homes conducive for living is of utmost importance to us. It is inside our homes where we begin to dream, and keeping it safe and clean would mean healthy tomorrows where our dreams can turn into a reality.

OUR WORK

NWTF believes in the importance of having access to clean and safe water for all Filipinos and that improved sanitation can prevent unwanted diseases from happening. As we move towards a healthier tomorrow, we believe that by working with our clients, this will be possible.

Problems with water access, sanitation, and hygiene have been prevailing in the communities, and to address these problems we have come up with the following products:

- Sanitary Toilet Loan
- Water Filter Loan
- Utility/ Water Connection Loan

Our clients can protect themselves from potential diseases that might affect them and their families, through these products and services.

Providing clients access to potable water

Addressing water and sanitation problems

Situation in the Philippines

“Nearly five million people in the Philippines rely on unsafe and unsustainable water sources, and nine million lack access to improved sanitation. Despite its growing economy, the Philippines faces significant challenges in terms of water and sanitation access. The country is rapidly urbanizing, and its growing cities struggle to provide new residents with adequate water and sanitation services.”

5 MILLION

LACK ACCESS TO SAFE WATER

9 MILLION

LACK ACCESS TO IMPROVED SANITATION

1 MILLION

Since 2014, NWTF has been able to help over one million lives by providing ease of access to safe water and proper sanitation.

As of 2020, a total of **230,169** WASH loans

have been disbursed.

OUR MISSION

We aim to provide our clients with affordable access to clean water, sanitation & hygiene facilities which are vital in creating homes conducive for learning and living. Strengthening partnerships with organizations that share the same goals of improving the lives of many through proper sanitation and water access.

“ I don't have to go to other barangays just to buy water. Now that we have water access, it is easier to take a bath, do laundry and other household chores. The NWTF WASH loan is very helpful for us. ”

Partnership with

In 2014, NWTF partnered with Water.org, an American non-profit developmental aid organization that envisions the day when everyone has access to safe water and sanitation.

Water.org supports the organizational activities related to health & sanitation including orientation programs, WASH educational programs, training of local masons, water service provider partnerships, and other relevant activities.
